INSTALLATION INSTRUCTIONS

Before making a cut-out, please contact your supplier to provide you with a technical drawing stating the suitable table cut-out dimensions. Ensure that there is a sufficient clearance, 150mm below the surface and 30 mm between the cut-out edge and the edge of the work surface.

1. Lift the clips and slide the side fixators down.

2. Place the module into the table cut-out.

3. Pull the sliding fixators back up until the module is fixed to the table.

DIMENSIONS

*NOTE - The module length depends on the required configuration
